SuperStack® 3 Switch 4250T 48-Port Plus 2 10/100/1000

3C17302

Características y ventajas

Affordable, Fixed-Configuration 10/100 Switching

For copper-wired Ethernet networks that need premium switching performance without the complexity and high price, the 3Com® SuperStack® 3 Switch 4250T is an innovative, yet eminently practical solution.

This 50-port Ethernet switch combines wirespeed Layer 2 switching with easy installation and exceptional reliability, backed by 3Com's limited lifetime warranty. Forty-eight autosensing 10/100 copper ports provide flexible desktop and workgroup attachments, while two autosensing 10/100/1000 copper uplink ports enable Gigabit Ethernet backbone and server connections.

Resiliency features such as Rapid Spanning Tree Protocol, link aggregation (for the 10/100/1000 ports), and a redundant power option help ensure uptime. Built-in Gigabit ports can be used as uplinks or for stacking with a mix of other SuperStack 3 Switch 4228G, SuperStack 3 Switch 4250T, and SuperStack 3 Switch 4226T units.

Wirespeed, non-blocking performance

Fixed-configuration design means the switch will operate right out of the box

Switch can configure its own IP settings for management through SNMP, web, or CLI

Forwarding rates up to 10.1 million packets per second

Two built-in 10/100/1000 ports support high-speed connections as uplinks or for stacking

Integrated stack management, for single IP management of up to four units

Redundant power is available using 3Com SuperStack Advanced Redundant Power System

Ships with trial version of 3Com Network Supervisor application, which configures, maps and monitors your system and provides custom alerts and reports

Limited lifetime warranty includes fan and power supply

Especificaciones de producto

Ports: 48 autosensing 10BASE-T/100BASE-TX, two 10BASE-T/100BASE-TX/1000BASE-T
Media Interfaces: RJ-45
Ethernet switching features: Full-rate nonblocking on all Ethernet ports, full/half-duplex auto-negotiation and flow control, multicast Layer 2 filtering, 802.1Q VLAN support, 802.1p traffic prioritization, IGMP snooping
Height: 4.36 cm (1.7 in)
Width: 44.0 cm (17.3 in)
Depth: 27.4 cm (10.8 in)
Weight: 3.2 Kg (7 lb)
