Características y ventajas

Copper Gigabit Ethernet Backbone Performance

This module delivers four ports of high-performance Gigabit Ethernet switching over copper cabling. It supports Layer 2 switching capabilities, virtual LANs and VLAN tagging, multicast filtering, and seven groups of RMON.

Wire-speed, nonblocking Gigabit Ethernet switching delivers maximum performance

Spanning Tree, resilient links and link aggregation ensure fault tolerance

3Com® Network Supervisor (60-day trial version included) lets you map, monitor, and document the network easily

Especificaciones de producto

Total ports: Four RJ-45 1000BASE-T ports
