### M20AP Modular Information Outlet Dust Cover/Blank

The M20AP is a dual-purpose dust cover/blank designed for use with modular information outlets. When the M20AP is used as a dust cover, it is inserted over the outlet opening and will protect the jack wires from contamination. When the M20AP is used as a blank, it fills unused port openings in M-series modular faceplates and surface mount boxes. Product comes in polybags containing 100 covers, they are not sold as eaches.
