GigaSPEED XL MGS400 Jacks - Category 6

The MGS400 Information Outlet represents the latest in a series of industry leading SYSTIMAX Labs innovations in the field of high-speed LAN connectors. SYSTIMAX Labs pioneered the industry's first Category 5 outlet in the early 1990s, the first Category 5e outlet in 1996, and the very first modular outlet certified to support Category 6 applications with the introduction of the GigaSPEED MGS200 Outlet in 1997, and MGS300 Outlet in 2000. Built upon this phenomenal success and supported by 18 patents, the MGS400 Outlet features proprietary cross-talk cancellation techniques for superior near-end cross-talk (NEXT & PSNEXT) performance that provides unmatched throughput performance when installed as part of a complete GigaSPEED XL channel.

The MGS400 Information Outlet is an integral part of the GigaSPEED XL Solution portfolio. The GigaSPEED XL Solution offers guaranteed margins over the minimum Category 6/Class E requirements even in worst-case configurations with up to six connections.

- T568A/B Universally Wired

Tech. Info & Standards:

Approved for GigaSPEED XL performance
TIA/EIA Category 6 compliant
Meets UL XP7 specifications

Fabricante	SYSTIMAX SOLUTIONS
Part Number del fabricante	MGS400BH-262
Código de cliente	700206725
Descripción	MODULO RJ HEMBRA GIGASPEED XL UTP CAT6 4PAR 110 T568A/B 700206725 BLANCO

Características	
Number of Ports:	1
Wiring:	A/B UNIVERSAL
Termination:	110
Category/Level:	LEVEL 7 AND/OR CATEGORY 6
Color:	WHITE
Market Name:	SYSTIMAX SCS
Family:	GIGASPEED XL
Sub Family:	MGS400 JACK
Comcode	700206725
Description	Elec. White
Systimax No.	MGS400BH-262
