1071E GigaSPEED XL7 NonPlenum Premises Cable - Category 6

1071E GigaSPEED XL 4-Pair Cables are designed to support emerging high-bandwidth applications, including the IEEE 802.3ab 1000BASE-T (Gigabit Ethernet), TIA/EIA 1000BASE-TX, 1.2 Gb/s ATM and any future applications designed for Category 6/Class E cabling, as well as analog broadband video up to 550 MHz. The 1071E GigaSPEED XL Cable features a patent-pending thin and easy to remove bi-sector tape. This delivers the performance benefits of more traditional fluted center members without the associated thickness and size.
