110A Field-Terminated Wiring Block Kits - Category 5e/6

There are several choices in ordering the 110 Wiring Blocks:

- 110AA2, 110AB2, and 110AC2 are the Wiring Blocks with connecting blocks (A = 5-pair, B = 4-pair, and C = 3-pair), clear designation strips and blank labels.

The 110 Wiring Blocks can be used with patch cords to support Gigabit Data Rates or cross-connect wires up to 10 Mb/s. When using in patching applications, it is important to use a 110 Jumper Trough between each 100-pair block to allow for horizontal routing of patch cords.

Backboards should also be used to neatly organize the vertical routing of jumpers and patch cords.

Tech. Info & Standards:

GigaSPEED: TIA/EIA Category 6 compliant when installed with 110 GS Patch Cords
