110 19" Mounting Brackets

The Mounting Brackets are used for mounting the 110-type hardware in a 19-inch frame rack or data cabinet. The cable support rings on the rear of the bracket secure cable routed through openings in the Mounting Bracket to the wiring blocks. Cross-connect wire or patch cords are routed from the wiring blocks through the troughs to the side of the frame to facilitate wire management. These Mounting Brackets can be mounted one on top of the other to support pair requirements. Wiring blocks, troughs, and rivets must be ordered separately.

Fabricante	SYSTIMAX SOLUTIONS
Part Number del fabricante	110RD2-200-19
Commcode	-
Descripción	BRACKET FOR MOUNTING 2 100 PR. 110 BLOCKS,2 110B1 TROUGHES TO A 19" RACK 107535585
